

Welcome to NewGen Families, your modern, inclusive, and friendly surrogacy agency, based in Nevada, USA. We're here to offer compassionate guidance, education, and support to all intended parents, no matter who you are, or where you live in the world.

Our surrogacy program is designed for you to enjoy every milestone along this wonderful journey, knowing that every detail has been expertly handled by our team.

We are committed to ensuring you are supported throughout your journey. We take the time to understand your needs, goals, and timelines and coordinate every step of your journey, allowing you to focus on the joy of expanding your family.

From the moment you join NewGen, our team swings into action to ensure your journey commences as quickly and smoothly as possible. Your first few weeks will look a little like this:

- ► Team Introductions: Introduction to your Intended Parent (IP) coordinator. Our Intended Parent team consists of parents who have been through infertility, or a surrogacy journey themselves, so we know the path you're on and we're excited you're here.
- Intake Documents: Signing your Agency Agreement and completing your Intake documents. We'll hold your hand and guide you through everything required
- ► Key partner Introductions: There are 4 additional services that you need to complete your journey and we'll introduce you to each based on your individual budget and needs.

  They are: IVF clinic, Attorney, Insurance and Escrow
- Community connections: It takes a village. We're not just here to build families; we're also creating a community of people sharing the same journey. Beyond our core team, we connect you with fellow Intended Parents. It's a space to share stories, support each other, and make this journey brighter together!
- ➤ Support: we will check-in on your progress with each provider, see how you're going with documentation and be on hand to answer any and every question that you have. We want you to be comfortable and confident through every stage of your journey!

We are your steadfast friend, supporter, and guide on this incredible journey! We're here to ensure your experience is not just beautiful, but also filled with all the information and resources you need. Our team is with you throughout, connecting you with trusted partners and navigating every stage — from now to the birth of your baby, your return home, and beyond.

Surrogates are incredible women answering a unique call to turn dreams into reality for Intended Parents.

Our goal is to ensure the fulfillment, support, and empowerment of our Surrogates throughout this lifechanging journey and beyond.

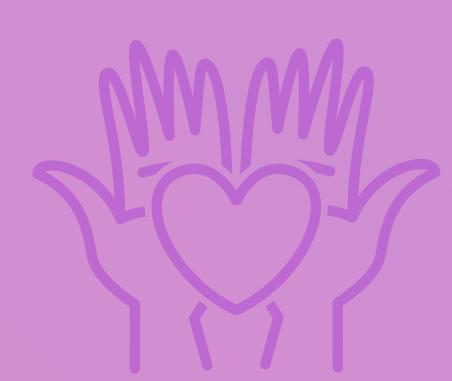

Every member of our Surrogate Team is an experienced Surrogate, using their firsthand knowledge to nurture and guide applicants through every step of the process. This approach empowers prospective Surrogates to make informed decisions about their journey.

Just like our Intended Parents, Surrogates come from diverse backgrounds, experiences, and networks. Many are referred by other Surrogates who have had wonderful experiences at NewGen, while others apply out of curiosity about the industry and a love of being pregnant. Regardless of their origin, their common drive is to nurture their own families while extending the same opportunity to others.

While we receive many applications to become a Surrogate, our acceptance criteria are stringent. Aside from comprehensive psychological and medical screening, all NewGen Surrogates must:

- Be passionate about wanting to help create a family for others.
- ▶ Be between the ages of 21-40.
- Live in a healthy, happy and stable environment.
  - Have experienced at least one successful full-term pregnancy and delivery.
- Have experienced uncomplicated pregnancies and deliveries.
- ► Have not experienced more than 3 previous births by caesarean section.
- Be non-smokers and unexposed to second-hand smoke at home and at work.
- Be willing to abstain from alcohol throughout the entire pregnancy.
- Be financially secure.
- Live in a Surrogate-friendly state.
- Have strong family and friend support networks.

We want the relationship with your Surrogate to be the second most beautiful thing to come from your journey! We lead with experience and education, ensuring everyone is emotionally prepared, and perfectly matched, for the incredible journey ahead.

### You are our number one priority

At NewGen, the entirety of our team share the same philosophy and mantra of 'Patient/Intended Parent/Surrogate first'. You are our focus, and we strive to provide you with the best and highest quality services at all times.

### Personal experience

The majority of our staff and partners have either undergone IVF treatment or completed a surrogacy journey themselves. Therefore, we understand the complexities and range of emotions experienced throughout each milestone along this beautiful and precious journey.

### Professional experience

Collectively, our team and trusted partners have managed hundreds of IVF and surrogacy journeys, guiding Intended Parents every step of the way until they meet their newborns for the first time.

### Full services under the one roof

From the beginning of your journey to the end and beyond, NewGen will coordinate everything for you. Together with our incredible partners, we offer the following services: Egg donor and Surrogate matching, embryo creation, all medical procedures, legal support, insurance advice and assistance with the exit process.

### Around the clock support

Both our local USA and international teams offer 24/7 around the clock support. We understand that Intended Parents can't always meet or chat during business hours. Therefore, our support team is available 7 days a week including after business hours.

# 100% success rate in matching Intended Parents with Surrogates within 0-3 months

NewGen is extremely proud that there is currently no waiting list! We have an excellent Surrogate recruitment program that ensures you will be matched with a Surrogate within 0-3 months.

#### Surrogate Care

Our Surrogates undergo a rigorous screening process before you are officially matched. The screening process involves medical and psychological evaluations to ensure the safety and security of the overall journey you undertake with your Surrogate.

#### Egg Donors

Through our trusted partners,
NewGen offers you access to some
of the largest egg donor databases
in the USA. All egg donor profiles
contain information about their
motivations to donate, education
level achieved, family medical
history and you can also access
a donor's comprehensive family
health and genetic history report.
IPs will have access to fresh or
frozen eggs.

### Community

NewGen Families is all about building lifelong relationships.
We cherish our Family catch-ups whether they are 1 on 1 meetings at a park, via Zoom or at group functions that we hold regularly in order to keep the NewGen Family connected.

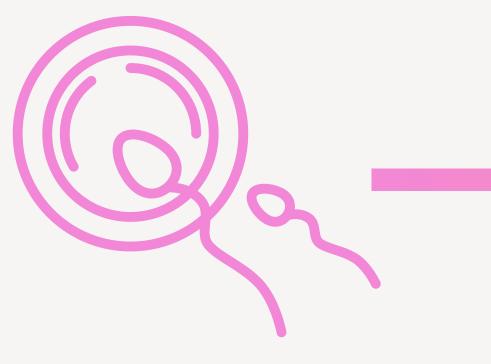

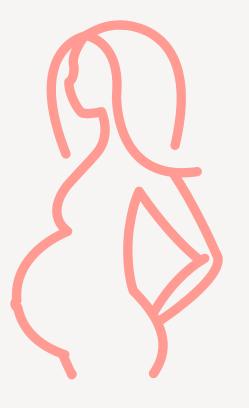

### LGBTQI & HIV+ intended parents

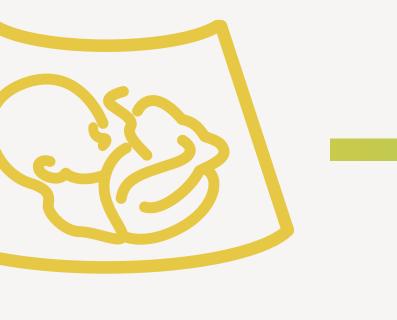

Newgen Families is not just about supporting the LGBTQI+ community, we are the LGBTQI+ Community. Our team has collectively managed hundreds of rainbow family surrogacy journeys, and we know that building LGBTQI+ families is possible, because we have done it ourselves and want to help you do it too.

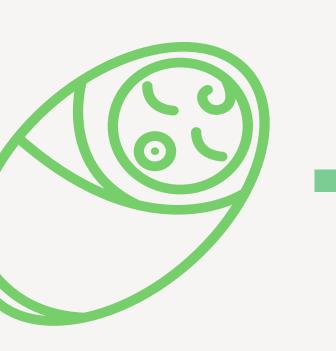

### From the beginning to the end and beyond, we will be there.

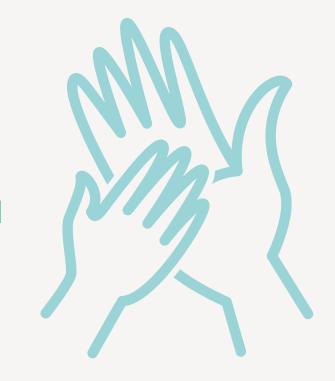

18-19 months

#### 0-1 month

- Signing agreements and clinic/FDA docs
- Opening and transfer of funds to Escrow account
- IP Medical examinations
- FDA testing
- Travel to Fertility Clinic for sperm deposit or
- Ship sperm (for international IPs)
- Select an egg donor

#### 2-9 months

- Egg retrieval
- Embryo creation
- PGT testing
- Surrogate matching
- Surrogate medical clearance
- Surrogate Agreement
- Surrogate insurance
- Preparing Surrogate for embryo transfer

#### 9 months

Embryo transfer

#### 9.5-12 months (1st Trimester)

- BETA test\*
- Pregnancy care at NewGen partner clinic

\*If BETA is negative, the next embryo transfer should be scheduled within 2 months.

#### 11 months

Heartbeat test

#### 12-18 months (2nd & 3rd Trimesters)

Pregnancy care moves to Surrogate's own obstetrician

#### 18 months

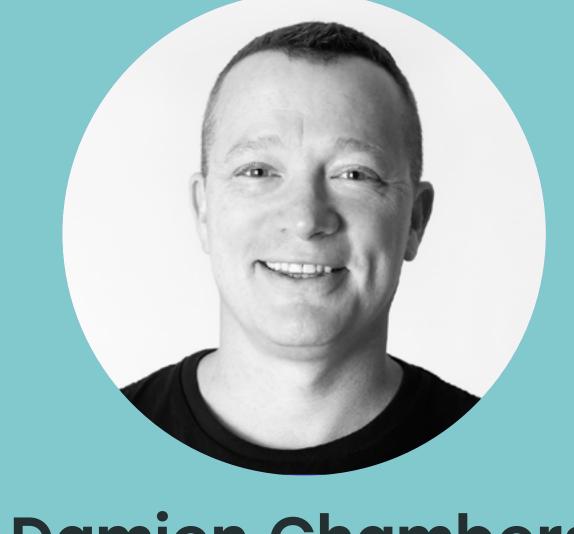

Birth

Exit process for international IPs

#### 6 months post birth

Escrow account closed

The timeline is based on a best-case scenario. As you know, there are many factors that can negatively impact a surrogacy journey so we advise IP(s) to manage their expectations accordingly.
